System Requirements

	Requirements
Minimum System Version	iOS 8
Network Access	Yes

Installation Guide

Check out how to install this app online: <https://hd89x.app.goo.gl/rniX> . We'll also redirect you to the app, if you already have it installed on your iOS device.

Due to the closed nature of Apple and iOS, you are not able to install the compiled binary directly on your iOS devices. We strongly suggest you use the following method to download the app on to your iOS devices.

This process actually requires human process behind the scene at some point, so it might take longer than you expect.

1. Make sure you have your Apple ID, the e-mail account you used for iCloud, downloading apps from App Store, or in iTunes.
2. Email the Apple ID to public-apollonian@outlook.com
3. You will soon receive an email from **iTunes Connect**
4. Provide the information needed to setup an iTunes Connect account
5. Another email from **Test Flight** will be sent to your Apple ID email. We strongly suggest you to open it on your iOS device(s)

6. Click Start Testing in the email
 7. If you are on an iOS device, the webpage will redirect you to app store to install TestFlight
 8. Open TestFlight. Tap redeem, and enter the redeem code given.
 9. Download/Install/Update *Charity Toaster*

Test Instruction

Login

To use certain features, you need to register or login your account. We'll prompt you to do so when needed.

You are welcomed to create new accounts, but we have some sample accounts available

email	password
text@example.com	123456
test@example.com	123456

How to purchase an item?

Because we don't have certificates and other legal documents, we are not able to enable real transaction. But you can try out sandbox purchases.

Paypal

You don't need to use your Paypal account, you'll be automatically using the sample account.

Visa

To purchase using visa card, please use the sample card provided blow

Visa Number	Expiration Date
4111 1111 1111 1111	11/19

How to share an item to your social media platform?

1. Make sure you are on a page for any item
2. Click on the share icon on the top right corner, or left corner if you are in an right to left language
3. Select the social media platform you wish to use
4. Comment, and post!

How to toggle settings and other features?

The setting menu can be toggled, using the hamburger-like button, which is located on the top left of the home page. The following features can be found here --

- Account settings
- Messages/notifications

- Other account related information
- Language settings
- Cache cleaning button
- About us information
- Acknowledgements page

How to donate an item?

- Go to the Donate page
- Fill out the item name, condition, photo, price, and other details
- Once you fill out all the requirements, the **done** button should appear at the bottom
- The item you want to donate should now displayed on the home page ready for purchase

How to use the Search/Filter feature

- Type in the name of the item you are looking for
 - Apply filter by tapping the filter icon located on the left of the search box
 - Click on the search button
 - All items that fit your requirements should be displayed if they are available
-

Developer's Note

Please open `FBLA.xcworkspace` instead of `FBLA.xcodeproj` , we are managing dependencies through CocoaPods

Because all the database and transaction providers uniquely identifies each app to make sure everything is safe, you can't change the team, and the account used to `codesign` the entire project. Therefore, you have to have our account to compile. We rather consider it an unsafe behavior to share our private key around. In conclusion, you might be able to compile it, but you will not get the same result as what we get after compilation.
